WHAT'S WRONG WITH MY PLANT?

When a plant begins to look pale and unhealthy, or starts to show signs of yellowing, reddening or browning leaves, it may be experiencing some kind of problem. Problems may be due to a number of factors — disease, drought, insects or environmental pollution. Or it may be a nutritional deficiency. Read more in:

RECOGNIZING PLANT NUTRIENT DEFICIENCIES by Dr. Angela O’Callaghan

HERB DEMONSTRATION GARDEN

The Master Gardeners have completing an extensive rehab of the UNCE Herb Gardens. They have planted a Formal Garden, a Container Garden, and a Basil Test Garden. Guided tours will be scheduled for the Fall, but visitors are welcome to stop by weekdays from 8 a.m. – 5 p.m. UNCE is located at 8050 Paradise Road (Windmill exit off 215).
