Gardening in Small Places: Growing Fruit at Home

Join Cooperative Extension on Saturday, Nov. 19, for a one-day workshop on *Gardening in Small Places: growing fruit at home*. The class runs from 8 a.m. to noon.

Figs, nectarines, peaches, apricots, pears, apples, strawberries, cantaloupe, grapes and blackberries are just a few of the fruits you can grow at home in the Mojave Desert. The fruit varieties may be different than what you’re used to but the results can still be spectacular. Dr. Angela O’Callaghan, social horticulturist, explains what plant attributes to look for when planning your home orchard.

Class space is limited to 25 and pre-registration is required. To register for this class, held at the Lifelong Learning Center (8050 Paradise Road, Las Vegas, Nev.), call Elaine Fagin at 702-257-5573.
