Homeowner Test Results Guidance
Strategy using short-term initial screening test

**Step 1**

1. **Initial Short-Term Test**
   - **Is the result equal to or greater than 4 pCi/l?**
     - **Yes:** Perform confirming Short-Term Test
     - **No:** No Mitigation recommended* 
       *Note: If you tested in the summer, we recommend a follow-up test during the heating season, or a year-long test.

**Step 2**

1. **If result is equal to or greater than 8 pCi/l**
   - Perform confirming Short-Term Test
   - **Is the Average of 1st and 2nd test at or above 4 pCi/l?**
     - **Yes:** Mitigate Home
     - **No:** No Mitigation, but a Year-Long Test is recommended

2. **If result is less than 8 pCi/l, Choose follow-up test type**
   - Perform Long-Term Test (Full year recommended)
   - **Is the Result of LONG-TERM test at or above 4 pCi/l?**
     - **Yes:** Mitigate Home
     - **No:** No Mitigation recommended
