

NEVER USE FARM PESTICIDES IN YOUR HOME!

Farm pesticides such as "Alfalfa insect poison" should be **USED ONLY ON THE FARM.**

"Alfalfa insect poison" and other farm pesticides **SHOULD NEVER BE REBOTTLED** into unmarked containers to be given or sold to someone for in-home use.

NEVER BUY OR ACCEPT any pesticides that are not in the manufacturer's container and clearly marked for in-home use.

NEVER USE or allow someone to spray farm pesticides **IN YOUR HOME!**

Farm pesticides sprayed in your home are a **DANGER TO YOU AND YOUR FAMILY.** They can make you very sick.

Farm pesticides take a long time (years) to breakdown indoors and **MAY MAKE LIVING IN YOUR HOME UNSAFE.** Don't let this happen to your family.

KEEP YOUR FAMILY SAFE!

- **Don't buy or use farm pesticides in your home!**
- **Make sure all pesticides have the manufacturer's label on them.**
- **Read the pesticide label to make sure it is safe for indoor home use.**

■ **Only use pesticides inside your home that are labeled for inside home use.**
