New Faces, New Places:
A Year-long Approach to Mastery
and Life Skill Development

This curriculum is designed specifically for a new audience and is used as a year-long approach to master and life skill development. It is used as a continuance of the completion of the "Introduction to 4-H for Urban Audiences" curriculum. It continues to provide opportunities to develop life skills through several educational programs and activities, most of which are from the National 4-H initiatives. Club members can select from among several program areas and use them as projects. They can display and/or demonstrate their project at county fairs.

The curriculum is divided into six lessons which are included in the CD:

Lesson 1: Starting a New 4-H Club
Lesson 2: 4-H Experiences in Animal Sciences
Lesson 3: 4-H Experiences in Health Life Styles
Lesson 4: 4-H Experiences in Plant Sciences
Lesson 5: 4-H Science, Engineering and Technology
Lesson 6: My 4-H Project

CD available for $20, includes shipping and handling
