What about the outside of my home?

- Place combustible patio furniture in the house or garage
- Shut off propane at the tank or natural gas at the meter
- Close all exterior vents if possible
- Prop a ladder against the house to provide firefighters with easy access to the roof
- Make sure that all garden hoses are connected to faucets and attach nozzles set on "spray"
- Close all exterior doors and windows
- Leave exterior doors unlocked
- Turn on outside lights
- If available and if there's time, cover windows, attic openings, and vents with plywood that is at least one-half inch thick
- Wet down wood shake or shingle roofs before leaving
- Fill trash cans and buckets with water and place where firefighters can find them

Be prepared! It will likely be dark, smoky, windy, and hot. There may be airborne burning embers, no power, no telephone service, and poor water pressure.

Remember, there is nothing you own worth your life! Please evacuate immediately when asked by firefighters and law enforcement officials.
