YOUTH
DEVELOPMENT

4-H Cloverbud Program
(5-8 Year Olds)

Enjoy
the Thrills
Develop
the Skills

!! Being A Cloverbud Is Fun !!

What is 4-H?

4-H is an exciting youth development program that is based on the concept of learn by doing (which is the 4-H Slogan) in order to develop youth to their greatest potential, in other words to make the best better (which is the 4-H Motto).

4-H and the 4-H Cloverbud Program are designed for youth to make new friends, have positive interaction with peers and adults, build positive relationships within his/her family, learn life skills, enhance self-esteem, and achieve personal goals.

What is the meaning of 4-H?

The clover is green and white; white is for purity and green is for the most common color of nature. Each H (Head, Heart, Hands, Health) is for a part of the human body that comes together to make a complete and valued person, as per the words of the 4-H Pledge.

I Pledge:

My Head to clearer thinking,
My Heart to greater loyalty,
My Hands to larger service,
My Health to better living,
For my club,
my community,
my country, and
my world.

What is the Cloverbud Program?

Youths who are 5 to 8 as of January 1 of the current 4-H Year (Oct 1 to Sept 30) may join the 4-H Cloverbud Program, which has age appropriate activities and also allows for and encourages creativity and play; therefore it is:

- fun and educational
- positive and beneficial
- success oriented
- non-competitive
- group-centered learning
- activity based
- leader directed

The 4-H Cloverbud Program provides an excellent opportunity for youth to achieve his/her highest potential because early life experiences affect future development.

Where can I sign up?

4-H Clubs/4-H Cloverbuds are located in every county, so joining is easy. Contact the University of Nevada Cooperative Extension Office located in your county using information located on the other side of this brochure.

What are the goals/purpose of 4-H Cloverbud Program?

The primary goal of the 4-H Cloverbud Program is to promote the child's healthy development – mentally, physically, socially, and emotionally.

- Self-Understanding Skills (self-esteem development)
- Decision-Making Skills (what is the better choice)
- Learning/Comprehension Skills (learning how to learn)
- Mastering Physical Skills (building stronger bodies)
- Social-Interaction Skills (getting along with others)
- Diversity/Differences Skills (acceptance of others)

Children possessing these life skills are less likely to have problems with drug use, school failure, delinquency, and depression as they move into their teenage years and then into adulthood.
