Puppets

Cloth Glove Puppet

A simple cloth work glove can become a handful of people or critters. Draw people or animals on the glove with bright colored permanent markers. Make a glove to go with your baby's favorite song or fingerplay. Set the color with a solution of half white vinegar and half water, and then iron dry with a medium warm iron. You may want to spray the glove with a fabric protector to keep it clean. Put the glove in a small zip-lock bag, and carry it in your diaper bag for those occasions when you need to entertain your baby.

(Newborn and Older)
